

MS DOS PRACTICE:

1. Open command prompt by clicking 'start' then in the search window type command.com/cmd.exe then hit 'enter' OR Click 'start' then locate 'all programs' then look for 'accessories' hence click 'command prompt'.
2. Command prompt can be run as an administrator by right clicking its window while still in startup window and selecting 'run as an administrator'
3. Having opened command.com, go straight to root directory by typing '**cd/**' followed by enter. You should get something like **C:\>**
4. Check the directories and folders corresponding to this partition by typing '**dir/p**' to view per page
5. Well create your first directory by typing '**md COICT**' followed by enter.
6. View if the directory is created by typing '**dir/p**'
7. Go to the just created directory (COICT) by typing '**cd COICT**' followed by enter. You should see something like **C:\>COICT>**
8. Within this directory create the department directories: type '**md ETE, CSE, IST, INRORMATICS, MULTIMEDIA**'.
9. Check if the directories are created by typing 'dir'. You should see them!
10. Within each directory create one text file and write short information about respective department. Use '**copy con nameoffile.txt**' remember the symbol for an end of file **Cntl+Z** followed by enter.
11. Check the contents of individual files using the command 'type' followed by the name of file.
12. Create another directory called MUST using command '**md MUST**' at the root directory. To do so go back to root directory using command **cd..** Severally until you are there. View if the directory is created by using '**dir/p**'
13. Within MUST directory create directories COSTE, CET, COACT.
14. Within CSE department create file intro_infomatics.ppt, write the 5 names of your classmates.
15. Within Multimedia directory create file **webcontet.mp3**, write any characters not exceeding five lines.
16. Copy all files from CSE directory to COSTE directory using the command and path:
C:\>COICT\CSE>copy *.* C:\>MUST\COSTE>
17. Within COSTE Rename the file intro_infomatics.ppt to microcomputers.txt using the command 'ren'. Type **C:\>MUST\COSTE>ren intro_infomatics.ppt microcomputers.txt**
18. Copy one file from INFORMATICS department to CET directory: type
C:\>COICT\INFORMATICS>copy nameoffile.txt C:\>MUST\CET>nameoffile.txt
19. Copy all files from ETE directory to COACT directory
20. Delete all files in each directory using the command Del followed by the name of file. Or using *.* command for all files with all extensions
21. Remove all directories using the command 'rmdir/' 'rd' followed by the name of directory. This can be done by first deleting all files from each directory. The directory with even a single file can't be removed until the file is deleted.

NOTE: **Don't touch any other files/directories except those you created!!!**

Also after each task use command dir/p to view what you did if it's successful.
